

# Action Renewables

## ‘LOW CARBON DESIGN’

*The only way forward for the construction industry*

- **Would you like to learn more about passive design, renewable energy technologies and how to incorporate them into building design?**
- **Do you need to know how environmental legislation such as the Code for Sustainable Homes and the EU Renewable Energy Directive are going to impact the future of the building industry?**

Action Renewables are inviting architects, surveyors, energy managers, council representatives, housing associations and members of the construction industry to attend a free seminar on Low Carbon Design.

### *Dates & Venues:*

**Friday 25th September:** 9.00am to 1.00pm  
South Eastern Regional College (Bangor Campus)

**Friday 30th October:** 9.00am to 1.00pm  
Ramada Encore, Belfast

**Friday 26th February:** 9.00am to 1.00pm
