Solar Warmth Terms & Conditions

- In these conditions the expression "this offer" means the "Solar Warmth Offer" whereby the customer will receive a grant of up to £1525 on their natural gas heating installation when it is installed at the same time as a solar thermal hot water system.
- "Phoenix" means Phoenix Natural Gas Ltd having its Registered Office at 197 Airport Road West, Belfast, BT3 9ED
- This offer is available to successful Reconnect applicants and is topped up by Phoenix.
- Registrations for this offer, which is limited to 50 grant payments, opens on October 1st 2007 and closes on January 31st 2008 or when all grants are allocated whichever is sooner. Registration cannot be considered a guarantee for receipt of this offer.
- To secure this offer the customer must nominate a company registered with Corgi and accredited by REIA (who is registered with Phoenix to offer this incentive) to carry out the installation of both the solar thermal hot water system and the natural gas heating installation. The nominated company will secure, from Phoenix, a Registration Number that must be activated (by accepting their quotation) within 42 days or by March 14th 2008 whichever comes first.
- To qualify for this offer a Phoenix Gas Connection Agreement must be completed with the customer requesting, from Phoenix a service and meter installation after October 1st 2007 and before March 31st 2008.
- To qualify for Solar Warmth your property must undergo a full technical assessment by a company registered with Corgi and accredited by REIA (who is registered with Phoenix to offer this incentive) and confirmed as suitable for the installation of a solar thermal hot water system and a natural gas heating installation.
- The minimum technical specification for the natural gas heating installation is listed on page 3 of the Summer 2007 Incentive Booklet. See also the list of available boilers applicable to this scheme overleaf. The specification for the solar thermal hot water system is available on request from the company registered with Corgi and accredited by REIA (who is registered with Phoenix to offer this incentive)
- Phoenix DETI will accept no liability whatsoever for any equipment installed or quality of work performed by any company registered with Corgi and accredited by REIA (who is registered with Phoenix to offer this incentive). The Customer should be aware that any agreement made is between themselves and their installer, even with regards to the acceptance of this offer. This includes any payment, or recourse, which will be between these two parties only and will not involve Phoenix/DETI in any commercial capacity whatsoever.
- This offer applies to occupied domestic homeowner properties only within the area in which natural gas is currently available and within which Phoenix is licensed (pursuant to the Gas Order (NI) 1996) to supply natural gas who are also successful Reconnect applicants.
- This Offer does not apply to:
 - Properties that were connected to the natural gas network before October 1st 2007.
 - Properties that already have a natural gas meter or existing gas appliances fitted (whether or not natural gas is actually consumed on that property).
 - Private or public rental landlord properties;
 - Any newly built properties (Natural Gas Prepared Homes) or those undergoing any form of renovation by a builder;
 - Any customer eligible for grant assistance (whether from local or central government, housing association, charity or any other source) for the installation of a gas appliance, central heating system or energy conservation/insulation package.
 - Installations carried out by any company registered with Corgi who is not registered with Phoenix to offer this incentive.
- To avail of this offer:
 - The customer's installer after completing and commissioning the high efficiency boiler installation and solar thermal hot water system must invoice the customer for the full cost of the installation.
 - A copy of the itemized and receipted invoice and Solar Warmth Grant Payment Request form must be sent to Phoenix within 60 days of activation or by May 1st 2008 whatever is sooner.
 - Payment of the £1525 grant will be made direct to the customer by DETI (£1125) and Action Renewables (£400), who will be acting on behalf of Phoenix.
- This Offer can only be used with the 'Free Connection to a Natural Gas Meter'. It cannot be used in conjunction with any other offers made available by Phoenix from time to time. Free connection to a natural gas meter is subject to the terms and conditions of the Phoenix Natural Gas connection policy.
- Phoenix may at its absolute discretion:
 - Withdraw this offer at any time without notice;
 - Extend the time limit for the installation of the gas meter or availability of the incentive offer beyond the January 31st 2008 closure date.
 - Amend or limit the selection criteria
- The property owner should contact local Building Control to establish if a Building Warrant is required.
- Phoenix will make available all necessary information to Action Renewables and DETI for the purposes of administering this scheme.
- Not all companies registered with Corgi are registered with Phoenix to offer this incentive. Customers are advised to check with Phoenix if they are in doubt about if an installer is registered or not.

Solar Thermal Hot Water System Inspection Terms and Conditions

- A solar thermal hot water system inspection will be undertaken by Action Renewables or their appointed agent.
- Access must be made available to an Action Renewables representative or their agent to undertake a quality inspection.
- Action Renewables will endeavour to undertake inspection within normal working hours.
- Delays in allowing access to undertake the inspection will delay payment of the grant.
